

## What is the LSU DIVA Lab?

- Created in 2009 with a grant from the LA Board of Regents to purchase equipment and software, using the Underwater Maya project as a test case
- Based in the Department of Geography and Anthropology at Louisiana State University, in Baton Rouge
- 3D imaging in the DIVA Lab and remotely at the Underwater Maya field camp in Belize
- Research focused on the Underwater Maya project, with collaboration with other labs and researchers at LSU and elsewhere
